Mr. Littlejohn gave notice of a bill compelling railroad companies which connect with each other to make such arrangements as will give passengers the privivilege of railing over two or more roads without charge at the end offeach road. Freight and baggage is also to have like accommodations. It is understood the bill has been projected on account of the action of the New-York Central and Hudson River roads.

Representative Murphy's Cd. Cd bill to legalize lotteries has not been perfected yet. It will recognize the fact that there are lotteries and granting licenses to all who may magage in that business. It is ablow at Ben. Wood's monopoly of lotteries which are drawn outside of the State and which pay no revenue to the State. Representative Sigreson's bill, relative to the Fire Department of New-York City, of which he gave notice to-day, will provide for the increase of the present force of firemen to the extent of 200 men. The bill of the same gentleman, relative to a Gas Commission, is for the purpose of forming a Commission to erect in your city new gas houses, or buy old ones, and force the city authorities to make a contract with the Commission to supply the city with gas.

Mr. Devlin gave nettice of a cill to incorporate a society with the Commission to or contract with the Commission to or contract with the Commission to or contract of all to incorporate a society with the Commission to or city of the city with gas.

old ones, and force the city authorities to make a contract with the Commission to supply the city with gas. Mr. Devlin gave notice of a cill to incorporate a society which proposes to take possession of Lower California and work its valuable mines. It is an old scheme and has among its incorporators the names of many prominent Mr. Weed's bill to prevent bribery and corruption in

gentiemen.

Mr. Weed's bill to prevent bribery and corruption in elections which I noticed yesterday, was introduced to-day. It provides that it shall not not be lawful for any persons, by bribery, promise, menace or other corrupt or unlawful means to attempt to influence any elector in giving his vote or to deter any such elector from depositing his ballot at any election or cown meeting in the State. Any person so offending, or any person accepting such bribes, shall be deemed guilty of folony, and upon conviction shall be imprisoned not least han one year nor more than five, and be forever disqualified for exercising the right of an elector or hold any office of public conflictnee or trust. It furthermore shall not be lawful for any candidate for office, or for any other person with intent to promote the election of any candidate, to furnish or accept any entertainment; to pay for, or procure, or engage to pay for any such entertainment, or receive pay therefore; to furnish any nearey or other property for the purpose of being expended in procuring the attendance of voters at the polls; to contribute money to carry on an election, except for defraying the expense of printing and the circulating of votes, handbulk, etc., or for conveying sick, poor, or infirm electors to the polls. Those offending against the latter provision shall, upon conviction, be pumished by imprisonment not exceeding two years, or by fine not exceeding 85,600.

Mr. Gridley presented a petition of the Metropolitan Police Commissioners, asking that the Police law relative to the life insurance of the members of the force be amended as follows: By the existing law the Police Life Insurance Fund is vested in the trustee-ahip of the Treaturer of the force and the Controllers of the Cities of Brooklyn and New-York. The politioners ask that, as the two latter officers seem unwilling to have the trust imposed upon them, it should be vesied in the Metropolitan Board of Commissioners. The potitioners of the force dependent upon or auther to be d

law in regard to the payment of the force should not be in any degree dependent upon or subject to be deputed by the hostile action of municipal officers of city or county, as is now the case, and finally that the force be moderately increased.

The State Military Association manifests more vitality this year than it has done for many years past. "There are fewer Major Generals," an old member remarked at this morning's session, "but there are more living men." The proof of it was in the fact that the officers followed up very earnest specches by placing the Association on the "grand financial basis" of a full treasury for the year to come. At this morning's session many unimportant resolutions were introduced; the only ones of general interest being one looking to a grant of Sec.60 from the Legislature for the use of the National Guard; a second requesting the Legislature to direct the Commissioners of the Central Park to set upart's suitable parade-ground fer the use of the Eigh Division of the National Guard, and a third soliciting the Commanders-Chief to order an enampment of such portion of the State National Guard as may be suitable, to be held during the Summer of 1867, under an appropriation of the Legislature for that purpose. A committee, consisting of Gen. Appirwal? Cols. Thomogra and Sagashir were appointed to urge upon the members the various measures surgested by the Association for the improvement of the efficiency of the National Guard. The following officers were elected for 1867-8: President, Gen. Lloyd, Aspinwall; First Vice President, Cal. C. H. Thompson; Second Vice President, Col. Gen. Heach; Pourth Vice President, Gen. E. A. Brown; Treasurer, Capt. H. Heath; Recording Secretary, Capt. J. A. Mason; Corresponding Secretary, Capt. J. A. Mason; Corresponding Secretary, Col. A. Wagstaff, it; Chaplain, Rev. C. E. Howes. After the usual vote of hundre to the officers of the past year, the Association adjourned to meet at 75 o'clock to eacorit the Commander-in-Chief to the Assembly Chamber, and t

Governor, the other gentlemen present. A large number of ladies were present, and they added a brilliancy to the scene which has not been witnessed in Albanyfor some time. During the evening the Governor made a few remarks complimentary to the National Guard, telling those present that he would use his best exertions to promote its efficiency, sustain its influence, and provide for the comfort and welfars of those connected with it. The reception lasted until nearly midnight.

THE BOSTON FAILURE-ASSETS OF THE UNION STEAM-SHIP COMPANY-THE BOARD OF TRADE AND BAIL-ROAD MATTERS. Y TELEGRAPH TO THE TRIBUNE.

Boston, Jan. 16.-The reported failure of a large ouse which has acted as the agent of our oldest line of British steamships has given rise to a great variety of sensational rumors, which have no shadow of foundation. The suspensions which have been so far reported have resulted suspensions which have been so far reported have resulted in almost every case from outside speculations. Public confidence is unimpaired in firms doing a legitimate business. The annual meeting of the Union Steamship Company was held to day. The steamships of the Company were cold in New-York some time ago, and a dividend of 50 per cent was made. The Company's assets are now \$817,500. The question of closing up affairs and making a final dividend was left to the Directors, with full powers. It is stated that the owners of a line of steamers plying between Boston and Bangor have recovered \$1,200,000 of the Government, for steamboats lost while under Government charters during the late war.

A sleigh race at the Riverside Trotting Park took place yesterday afternoon. It was won by a bay stallion, entered by Dan Mace, in two,heats. Time 2:494.

At an adjourned meeting of the Board of Trade to-day the question of the purchase of the Western and Worcester Roads by the State was debated, and finally referred to a committee. The members seem disinclined to take any action. The Board adopted a resolution offered by ex-Mayor Lincoln, recommending the Legislature to consider the expediency of constructing a railway around or over the Hoosie Mountain, to be used during the construction of the tunnet.

Daniel Quinn was next placed on the dock-States that he is a native of the County Cork, and a laborer; has lived everywhere; he was one of Morgan's guerrillas, and, according to his representations, saw hard times. It was shown in evidence that the prisoner came over with the Fenians, and was armed when captured. He said the name of the country was to be changed from Canada to the Irish Republic. Col. JOHN ROMANS CONVICTED, AND JAMES SPAULDING RE-LEASED.

The Fenian trials were resumed this morning, the Hon. Judge Morrison and the Hon. Judge Hagarty presiding. John Romus being arratgaed expressed a wish that his jury should be composed of half aliens, which was complied with. The following are the names of the American jurors: Thomas Steele, A. B. Walker, C. A. Morse, S. M. Sauderson, James E. Withers and H. D. Thomas. Mr. Steele said he thought he was not eligible, as he had expressed strong opinions against Fenianism. Judge Hagarty said that was not a valid excuse; he must try the prisoner by the evidence, irrespective of feeling. The Hon. J. H. Cameron stated that the Crown had elected to try the prisoner as an American citizen. must try the prisoner by the evidence, hrespective of feeling. The Hon. J. H. Cameron stated that the Crown had elected to try the prisoner as an American citizen. The evidence showed that the prisoner, armed with a rifle and bayonet, stood guard over Mrs. Bristew's Hofel at Fort Erie. The only witness for the defense was Major Denison, Commander of the Governor-General's bodyguard, whose evidence was unimportant. After speeches for the Crown and the defense the jury retired, and in half an hour returned with the verdict "guility."

James Spaulding was next arraigned. He claimed to be an American citizen, and asked a jury half allens, which was granted. The testimony of the Crown witnesses having been taken Mr. McKenzle addressed the jury for the prisoner, and contended that there was no evidence that Spaulding had been with the Fenians at Ridgoway, and at the close of his remarks put in an affidavit on behalf of the prisoner, signed by one Cleary of Cincinnati. The jury after an absence of 20 minutes returned to Court with a verdict of not guilty.

William Baker, a shapie-looking man, 40 years old, was next placed in the dock. The jury was the same as in the previous cases. After the examination of the witnesses Mr. McKenzle said the prisoner was a half-fool of a fellow, with no fixed place of abode, who had joined the Fenians for the fan of the thing, without any intention of making was.

The Judge in summing up, said that the evidence was strong against the prisoner but that it was a case for a recommendation to mercy from the Jury. At 7 e'clock there being no prospect of the Jury agreeing they were

McCarty, passing the intersection of Broadway and Nine teenth-st., observed two well-known up-town thieves entering a dry goods store and subsequently watched them, and at length took them into custody. Refurning with them to the store they had visited, the officer made himself known to the proprietor, informed that genhimself known to the proprietor, informed that gentleman that they were young thieves, and inquired what business they had transacted. The tradesmen replied that they had sold him four dozen pairs of Jouvin's kid gloves for \$24, and that having suspected them, he had, after bank hours, given them a check and sent a clerk to watch their movements. Thereupon Officers McCarty, Myers and McGovern took the prisoners and the gloves to the Twenty-ninth Precinct Police station, and held them through the night. The gloves, for which an owner is wanted, may be seen at the Twenty-ninth-st. Police station, and are marked thus: "Jouvin Doyon & Co., B 242, 64; Z 2 g g ½." The prisoners render the names of James Larkin and James Freeman. The sergeant in command had hardly sent these follows to the cell when Officer Delanoy entered with a drunken burglar, who, while inebriated, had been caught in attempting to commit burglary in Mr. Bernard Brady's shop, at No. 295 West Thirty-sixth-st. THE EXCISE LAW.

ATTEMPT TO BRIBE POLICE CAPTAINS. Now that the Excise Law has been declared Constitutional, those liquer dealers armed with injunctions from Judge Cardozo and others, who were the most defiant, have suddenly become very submissive, and are bedeging the various police captains to favorably indorse their applications to the Beard of Excise for licenses. As might be supposed, many of these men are willing to pay well to obtain the coveted indorsement, as a recommend from a captain of pelice, who is supposed to know the character of every place in his Precinct, is tantamount to procuring a license. Some time since one John Elley, who keeps a low saloon at No. 15t Leonard-st., applied to Capt. Jourdan of the Sixth Precinct, to indorse his application for a license. As he had formerly kept a very bad place at No. 58 Centre-st., the resert of abandoned characters of both sexes, Capt. Jourdan refused his request. A day or two since Riley sent a young girl with an envelope containing \$50 to the Captain, with the request that the latter use his influence to procure him the coveted license. Instead of doing so, however, Capt. Jourdan sent the money to Supi. Kennedy, and it was added to the Police Life Insurance Fund. Capt. Thorne of the Fourth Precinct, recently received from one Joe Schneider of Nos. \$1 and \$3 James-st., a note, requesting him to use his influence to procure for him a license, and inclosing \$25. As Schneider, according to Capt. Thorne's report, keeps one of the worst places in the Fourth Ward, his request was not complied with, and his present was disposed of in the same manner as that of Riley. It is perfectly safe to predict that neither Riley or Schneider will procure licenses. Other cases have occurred where Police Captains have been approached with a view of bribing them, but none have occurred so openly as the above. their applications to the Board of Excise for licenses. VIOLATIONS OF THE EXCISE LAW.

James Boland, corner of Fifth-ave. and Twentiethst., Brooklyn, John Williams, corner of Fifth-ave. and Twenty-third-st., Patrick Carney, corner of Fitth-ave, and Thery-sts., Wm. Glander, East New-York, Thomas Eldridge and John Smith, Forty-fourth Precinct, J. Kiley, F. Quigley, J. McQuade and P. Keernan, Forty-third Precinct, were yesterday arrested for violation of the Excise Law, by opening their places of business before sunrise. They were fined \$30 cach, or held for further examination.

THE RROOKLYN LIQUOR-DEALERS.

A meeting of the liquor-dealers of Kings County was held last evening, at No. 365 Fulton-st., Brooklyn, for the purpose of organizing and concentrating the liquor interest of the county, with a view to obtain the repeal or modification of the Excise law.

Mr. John Langstaff was elected Chairman, and it was resolved to hold a public meeting on Friday evening next, when a permanent organization will be effected.

After a somewhat lengthy discussion of the merits and demerits of a law that all seemed to consider "obnoxious, unjust and illegal," the meeting adjourned.

A very interesting con est at base ball on the ice took place at Sylvan Lake, Ho, boken, yesterday afternoon, the contestants being the most expert skaters of the the contestants being the most expert shaters of the Eagle and Empire Clabs of this, 'ity.' The weather was very favorable for the sport, and the ice was in tolerable condition, and consequently the gan 've proved to be very interesting. It was after 2 o'clock befo ve all was in readiness for the match; but by 2! o'clock pilly was called, the Eagles leading off at the bat. Their has seven were scored runs, but the next three were put out at first base, the score fruns, but the next three were put out at first base, the score fruns, but the next three were put out at first base, the scored runs, after which Hart striker and the first out, Norton capturing the ball at first base. Wan d and Gaunt then scored runs, after which Hart struck out, and so did Lawrence after Duneau had secured a run—the innings elesing with a score of 7 to 5 in favor of the Eagles.

In the scoond innings the Eagles only secured two runs, but that was two more than the Empire obtained, for they retired in succession for a blank score. This compliment was returned by the Empires the next immars, and by a score of four they left the totals at the close of the Yuird innings at nine to seven, the Eagles being only two alward. In the fourth minings they scored four to three, thus getting within one run of the Eagles. As it was mutually agreed upon that the game should consist only of five innings, unless the score should be a tie at the close of the fifth innings, now to be played, was the last, and considerable interest was taken in the progress of the game. McGinn led off in the fifth inaings, on the part of the Eagles, and managed to reach his first base, but Phillips hitting a high ball, which was taken on the fit, McGinn was cought mapping at first base, a double play being scored one run only was afterward secured, two men left on the bases, when Hicks went out on a foul fit, thus leaving the Empires three runs to get to win. They however obtained four runs, and came in the victors by a score of 15 to 13 in favor of the Empires. We quote Eagle and Empire Clubs of this city. The weather was

THE NEWSPAPER BUSINESS .- The wholesale trade in newspapers, magazines, &c., which, a few years ago, was in its infancy, employing but few persons, is, in this year, 1867, a great interest, whose transactions are counted by millions of dollars a year. This enormous increase, arising from the great increase in the circulation of newspapers, magazines, &c., and the continual development of the resources of the country has been so rapid that we whose recollections of "The Trade" in New-York extend back a dozen or twenty years, are astenished, and have our ideas of it considerably enlarged when we find that another Joint Stock Company, with its President, Secretary, and managers, has been brought into existence. Our readers who, on Satur-York News Company, will at once understand that we refer to that organization of reliable and energetic men who yesterday commenced as a company—the business of supplying to newsdealers throughout the United States and Canada all kinds of newspapers, magazines, periodicals, books, &c., &c. The company is managed by David P. Rhondes, Robert M. DeWitt, Joshua G. Abbe, William D. Bancker, and George Ross, all long and favorably known to publishers and newsdealers, associated with whom are Luther S. Lawrence, the well-known banker of Nassau-st., and Samuel S. Blood. The New-York News Company goes into operation with fine prospects; and well it may, for the business is so very expansive that there is "ample room and verge enough" for all to achieve abundant success.
